CEO Message

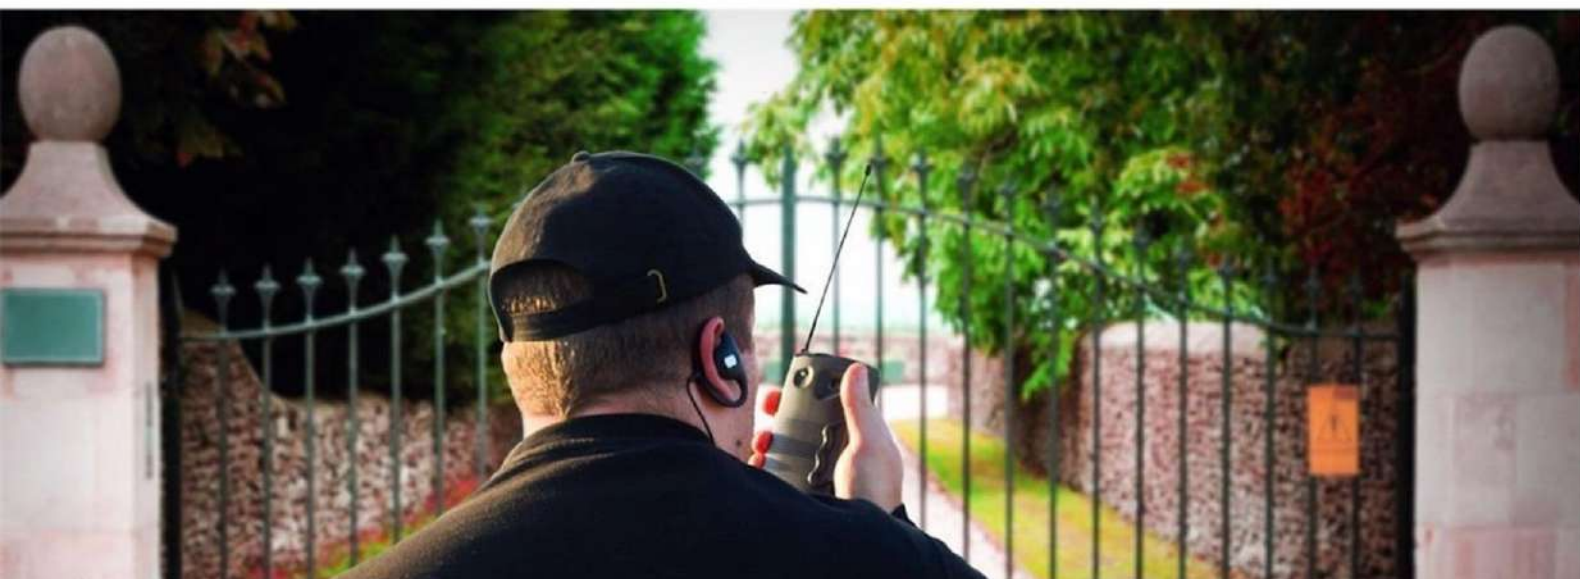

Salah satu dampak positif baik, secara langsung maupun tidak langsung, dari percepatan laju pembangunan infrastruktur di Indonesia yang kita lihat akhir-akhir ini adalah meningkatnya permintaan akan jasa pengamanan di berbagai bidang, utamanya bidang pariwisata. Pada akhir tahun 2017 PHRI mencatat bahwa Indonesia akan membuka 55.000 kamar dari ratusan hotel yang tersebar di Indonesia khususnya pulau Jawa dan Bali, sebagai salah satu jawaban dari tuntutan target kunjungan wisman tahun 2018. Permintaan tenaga keamanan pun meningkat sekaligus berubah sesuai dengan penambahan tugas seorang tenaga pengamanan menjadi wajah terdepan dari sebuah usaha. Kompleksitas ini tentunya membutuhkan penambahan keterampilan dari para tenaga keamanan.

Kami hadir menjawab tantangan tersebut dengan perencanaan yang tidak hanya matang dan rinci tapi juga disesuaikan dengan kebutuhan masing-masing usaha. Hal ini ditunjang dengan pembekalan dan pelatihan ketrampilan tenaga pengamanan secara kontinyu, terarah, dan terevaluasi. Pengalaman saya selama 20 tahun bekerja di bidang perhotelan akan menjadi modal dasar yang sangat berguna untuk mengisi celah yang seringkali ditemui di bidang jasa pengamanan.

One of the positive effect, both directly and indirectly, for the last 5 years the accelerated pace of infrastructure development in Indonesia that we have seen lately is the increasing demand for security services in various fields, especially tourism. At the end of 2017 PHRI noted that Indonesia will open 55,000 rooms from hundreds of hotels spread across Indonesia, especially Java and Bali, as one of the answers to the demands of the target of foreign tourists visiting 2018. The demand for security guards has increased and changed due to this additional task to become the front face of a business. This complexity certainly requires additional skills from security personnel.

We are ready to answer those challenges with such planning that is not only merely well tailored to the needs of each business. This will be supported by continuous, task oriented trainings followed by regular evaluation. My experience for 20 years working in the hospitality sector will be a very useful base for filling gaps that are often encountered in the field of security services for hotels and apartments.
